- **Prologue**

There are cars. There are collector cars. And then, there are icons.

Built to mark three decades of Porsche's most celebrated creation, the 1993 911 Carrera 4 "30 Jahre 911" (aka 30th Anniversary Edition or 30th Celebration Edition) is more than just a car. It is the embodiment of everything the air-cooled era stood for: purity of purpose, mechanical perfection, and a design language untouched by time.

Our Modus Operandi at Brittle Motor Group – *"Let's create the most beautiful 964 Celebration 30 Jahre in the world!"* Richard Brittle, Founder, Brittle Motor Group Limited.

Mechanical Soul, Dressed in Celebration

The 30 Jahre was based on the Carrera 4 platform — combining Porsche's bulletproof 3.6-litre air-cooled flat-six with a manual gearbox and all-wheel drive for true everyday usability.

But it's the body that defines this edition — the wider rear arches of the 911 Turbo minus the rear wing, creating one of the most beautifully sculptured and proportioned 911s ever produced. Subtle badging, a numbered plaque, and exclusive interior details distinguish the Celebration Edition as something truly rare.

Just 911 of these celebratory wide-bodied 964s were ever built for the world — and of those, only 36 left the factory in right-hand drive for the UK mainland, of which only 23 units are believed to be still in existence in the UK. This example? It may well be the best-preserved, best prepared, and most correctly restored of them all.

The Restoration: No Compromise. No Corners Cut. Just one big fat blank cheque!

This is a concours-level example, restored to a standard few will ever witness — let alone own. This car has undergone an exacting, comprehensive restoration by ourselves, returning it to an as-new condition throughout. Highlights include:

- Full appraisal and work carried out with OPC prior to commencement of restoration
- Full interior and glass-out respray to original specification
- Full undercarriage strip-down and renewal including suspension, brakes, etc.
- Freshly rebuilt mechanicals throughout
- Original panels, finishes and trim painstakingly preserved, reconditioned or renewed
- Engineered to drive as-new, yet presented to museum-quality standards
- Presented today in *concours-quality* condition with a host of paperwork including the original handbook and service book with 34 Porsche main dealer stamps, invoices and previous sales particulars (two files)

The result is a truly **as-new 911 Carrera 4 "30 Jahre Edition"** – offering the look, feel and drive of a car leaving Stuttgart's gates in 1993.

Nothing was missed. Nothing overlooked. No cost spared.

Investment Grade

As we just pass the 60th anniversary of the 911, the appeal of the 964-generation — particularly rare, air-cooled wide-body models — is only intensifying. And within that world, the 30 Jahre Edition stands alone in rarity, beauty, and balance.

This particular car is offered at POA — making it the most valuable and best-prepared right-hand drive 30 Jahre in existence. But for the right collector, the value lies not just in its rarity, but in its story, presentation, and unrepeatable condition.

This is not only a car to drive – it's a car to experience. A celebration not only of Porsche history, but of craftsmanship, commitment and curation.

If you are looking for the ultimate collector's 964 Celebration. It's quite simple…

"You are wasting your time trying to find a "Jubi" as superb as this. We have truly created a majestic masterpiece that is worthy of exhibiting in any personal collection or museum, whether it being one for motoring or fine art. This is basically as exceptional as it gets!" Richard Brittle, Founder, Brittle Motor Group Limited.

For discerning collectors only. Viewing strictly by appointment only. Worldwide delivery available.

In March 1993, Porsche presented the 911 Anniversary model at the Geneva Motor Show. Entitled the **“30 Jahre 911”** by the factory it was also commonly known as the “Jubilee”, “Jubi” or “Celebration”. Under the internal factory code of M096, this was a limited edition, factory built 911 (964) Carrera 4 with the “WTL” (Wide Turbo Look) Turbo wheel arches and wheels but without the tray styled rear wing.

Total worldwide production: 911 units (built between 1993 and 1994)

Total UK (mainland) production: 36 units

Engine power: 250 bhp

Originally offered in three metallic colours; Amethyst, Polar Silver and Viola Purple. Subtle interior details included a titanium silver gear knob inlay and a rear parcel shelf numbered plaque.

Most cars received Rubicon Grey leathered interiors, however a few had black.
